# Hello. I'm **Öznur Yılmaz**

And I am A Full Stack Developer

WHAT I AM DOING

I'm a results-driven Frontend Developer with a strong focus on building modern, user-centric web applications.

I have hands-on experience developing Next.js and React projects using TanStack Query, Tailwind CSS, and shadcn/ui, delivering scalable and high-performance interfaces.
I've integrated Masterpass and other payment infrastructures to create secure and seamless checkout experiences.

My expertise also includes building real-time analytics dashboards, implementing custom GTM event tracking, and optimizing application performance through Lighthouse audits.
I value clean, maintainable code, effective teamwork, and continuous learning to deliver impactful digital experiences.

WORK EXPERIENCE

SENIOR FRONTEND DEVELOPER
Alış Gidiş - Fibabanka / Istanbul - Turkey   2024 - Present

Integrated Masterpass and payment infrastructure for secure and seamless checkout experiences.

Developed and maintained three production-grade Next.js applications using TanStack Query, Tailwind CSS, and shadcn/ui.

Built and delivered a complete analytics dashboard from scratch, implementing real-time data visualizations and reports.

Implemented custom event tracking via Google Tag Manager (GTM) — responsible for defining the data layer and ensuring accurate analytics.

Worked on a large-scale e-commerce platform as part of a 6-person frontend team, focusing on scalability and maintainability.

Collaborated with UX/UI designers to translate Figma designs into responsive, accessible, and pixel-perfect components.

Utilized TanStack Query for advanced caching and efficient data fetching strategies across multiple projects.

Contributed to overall code quality through code reviews, consistent component architecture, and reusable design patterns.

Followed Agile workflows, participating in daily stand-ups, sprint planning, and issue tracking via Jira.

Optimized performance and accessibility, achieving high Lighthouse scores through continuous audits and best practices.

MY EDUCATION

COMPUTER TEACHER   2018 - 2022
Marmara University
Finished 3,20/4 degree.

BACKEND DEVELOPMENT   2014 - 2018
Technical Highschool
89,23/100 top student of the school
